

## CALLS FOR COMMENT ON PROPOSED NEW MUNICIPAL LOGO

Council has embarked on a facelift for our municipal logo as we were of the view that way its look is not a true representation of the area and its people. With this proposed logo we have highlighted strong elements that make up the culture, nature and economic strongholds that exist.

The logo now boasts the features of a mountainous landscape with flowing rivers, Acacia tree which means Mkhambathini in isiZulu, chicken and crops which is synonymous with farming in the area. The bright dominant colour green represents the flora and fauna we are famous for and yellow speaks to the bright sunshine. The spear and knobkerrie represent the dominant Zulu population and that we are in KwaZulu-Natal the province of the Zulu kingdom as indicated by a crown for traditional leadership. The stars are a sign of aspirations for reaching levels of prosperity, development and giving hope to the community.

We welcome and look forward to your comments which can be emailed to [communications@mkhambathini.gov.za](mailto:communications@mkhambathini.gov.za) or visit our Facebook page Mkhambathini Municipality or slip your comment into a suggestions box placed at the municipal reception area. This opportunity is open for 14 days from today July 24<sup>th</sup> 2017.
