OUTREACH ADDRESS HARVESTING APPROACH

1. How does the Electoral Commission compile and maintain the Voters Roll

- By registering voters and entering their details on the VR on the continuous basis.
- A voter registers only if:
 - s/he is 16 years or older;
 - a South African citizen;
 - s/he is in possession of a South African ID, TIC or Smart Card; and
 - s/he must register in person.
- A voter must be registered in the voting district in which the voter is ordinarily resident.
- Ordinarily resident means the place where a person normally lives and to which that person regularly returns after any period of temporary absence.
- A voter registers once, and can only re-register if the voter relocate into another ward, municipality or province.
- It is a criminal offence to be registered in the voting district in which the voter does not ordinarily reside. (It is a punishable offence).

2. Important Components of A Voters Roll (Voters Important Details)

- The legislation stipulates or requires that the voter's correct and full residential address appear in the segment of the voter's roll along the voter's other details.
- It needs to have the voter's full names and surname, ID number and the voter's date of birth.
- The voter's sufficiently descriptive residential address, including the street name, house number, suburb and town, in case of an urban resident.
 - The farm or village and area name, the traditional authority and town, in case of a rural resident.
